

The University of Chester

Socialise in Style

Completion of a project to revamp a Student Union bar at the University of Chester means that conference delegates now have access to another high quality, newly refurbished facility on our Chester campus.

The £100,000 project (which included £12,000 on a new sound system alone) now provides both a relaxed, attractive environment and a social meeting place for conference guests. Combined with designer lighting and furnishings, and a range of reasonably priced drinks, we are sure you will find this an ideal venue to unwind after a hard day of conferencing (you can even request a bar extension if you don't think our standard hours will be long enough!)

The facility is within easy reach of both the wide range of conference venues on our Chester campus and City centre attractions, and please note that some superb late availability discounts are available this August.

We look forward to welcoming you!
